

Just to let You Know

Maths

This week we are using adding and taking away to solve practical problems. Eg 20 children are in the classroom. 5 go to the library. How many are left in the classroom? $20 - 5 = 15$

Weaving

The children are making fantastic little woven rugs for their special toy. Thank you for all the wool so far and we still need more please.

Literacy

The children have been enjoying planning and writing their 'Snail and the Whale' stories. Next week we begin by reading the Katie Morag stories. These are set in Scotland on the island of Coll. This leads to learning about life on an island and how different it is from living in Guildford. We will look on the maps to find which countries make up the United Kingdom.

Sound of the Week

u-e (magic 'e') eg cube, tune, rule, huge
Please remember to practise these words at home in the 'Sound of the Week' books and choose one word to include in a sentence.

Wild Place

We will be going to The Wild Place on Monday 6th February. As it is book week we plan to take a selection of stories and poems to read and enjoy together.
