

### Topic fun

This week we have started thinking about or topic for this term, **journeys**.

We have done this by looking at the story of Where the Wild Things Are and thinking about the journey that Max makes in that story.

### Writing Corner

We have been concentrating on characters this week and learning how to write character descriptions using brilliant describing words.

Have a go at describing some of the characters from your favourite books or films! Hagrid or Willy Wonka might be good fun!

### Maths Corner

We have been thinking about place value this week and learning about the different digits in numbers. We have learned how to break numbers up into tens and units and some of us have even been thinking about hundreds.

### Spellings.....

This week we have been practising wh words. Try these at home ...

who what when where why  
whatever which whose

### Things to remember...

As you know, we often work outside or even at the Wild Place, and this will be true this term even more than last. Please can you make sure that your children always have wellies or trainers at school and have a coat to wear in case of bad weather.

Next week we are thinking about the places we want to go to on our journey. On Tuesday please can the children bring in a picture of where they want to go. This can be real or imaginary and may be a photo, drawing, from a magazine or a painting! Enjoy finding amazing places!

**Help!** We will be starting art carousel next Wednesday afternoon and would love some people to help. We also would be very grateful for any helpers on a Wednesday morning for some group reading or Thursday afternoon for our trips to the Wild Place. Please let us know if you are able to help at any of these times!
