

YEAR 2 NEWS

Natural History Museum

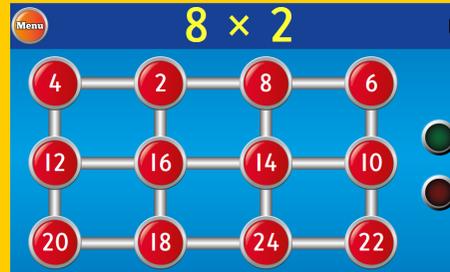

We are very excited about our trip on Tuesday 19th June. Please ensure you return the **permission slip and payment before half term.**

It would be great if we could have a few more helpers for the trip so please do let us know if you can come with us.

Maths Week

We have been revisiting all of our maths topics this week, practising all of our maths skills such as adding, subtracting, multiplying and dividing, doubling and halving. Thank you for helping your child to learn to tell the time.

It really is starting to make a big difference. Hit the Button is a great website to use to reinforce what we have been doing in class. **Please use this resource to practise with your child if you can.**

Friday 11th May 2018

English

We have been having a great time continuing our Danny and the Dinosaur stories with a focus on capital letters and full stops. We have been using adjectives and joining words such as 'because' 'so' 'when' and 'but'. Some children are beginning to use contracted forms e.g. can't, don't, didn't. We are looking forward to sharing these stories next week across the year group.

Topic

This week we have learning more about fossils and we looked at ammonites in particular.

We have made some beautiful 3D ammonites from clay and we will be painting them soon. We will also get a chance to create careful and detailed water colour and pencil drawings.

DINO-FUN

Over the next two weeks we will be enjoying a lot of dinosaur topic based art activities. The children will be making things in preparation for our Dinosaur Museum later in the summer. As you know, the museum will be open on the morning of 6th July.
