

Maths

This week in maths we have consolidated our understanding of 3D shape by building shapes from nets and making 3D shape Top Trumps. The children investigated the many different ways it is possible to draw a net for a cube as well as identifying faces, edges and vertices of less common 3D shapes. Can you find any examples of a tetrahedron, triangular prism or square based pyramid at home?

English

This week we have started to research volcanoes. The children thought of questions they would like to find the answers to and then used these as a starting point for their research.

This was used to create individual and interesting posters.

Art

The children have been studying ancient Greek designs and patterns in art. They planned, drew then made their very own Greek theatre mask, which are now waiting to be fired so they can be glazed; they look fab!

Spellings

gentle
giant
generous
danger
huge
orange
ginger
generation
magic
strange

Greek Day

Our Greek Day is on Friday 16th March. Please return your completed slips to your child's class teacher a.s.a.p.

Parent Consultations

We are looking forward to meeting to discuss your child's progress and achievements so far this year; please contact your child's teacher if you have not received your appointment time.

Reading Comprehension

Please support your child with their Reading Comprehension homework and ensure that their comprehension books are returned to school on a Monday morning; they take a long time to mark!

Mental Maths

Copy the link for a fun multiplication game to practise those times tables!
