

Just to let you know

Dates for Your Dairy

Trip to NHM: Tuesday 7th

March

Parents Evening: Tuesday

6th and Thursday 8th

March

Wintershall Trip: Wednesday

21st March:

Internet Safety Day

We all had a very thoughtful and insightful day on Tuesday discussing how we use the Internet and keep ourselves safe. The topics covered included; sharing images online, making positive comments, using social media and terms and conditions of using various websites and apps. Please make sure you talk to your child about being safe online.

Science Week

Science Week for all year groups begins the week after half term and we are planning lots of exciting activities for the children to take part in. The children will be working in their houses during the morning from Monday 19th till Thursday 22nd. Each day the children will find out about different famous scientists and their discoveries and then take part in some hands on investigations related to the scientific theme.

On Friday 23rd February (from 2.30pm) we would love to invite parents, grandparents and carers to their child's classroom. There will be lots of science investigations for your child to show you and you may like to visit other classrooms too so that you get an idea of all the fun and science learning that your child has been part of during the week.

Homework

We will not be setting maths facts or a reading task over half term. However, this break is a perfect opportunity to revise times tables with your children. It is so important they know them so please do lots of repetition so the children are competent. Please also read regularly over half term and record it in your reading records.

We have set an optional healthy eating challenge over half term. The challenge is to make a healthy balanced meal, take a photo of the finished product and identify the different food groups it contains.
