Beech and Oak

6th March 2014

Parent Consultations

Thank you for coming to your parent consultation meetings this week. We hope you found it helpful.

Dear Parents,

This week we had a lovely time finding out about how to write a children's book when Naomi came to share her book "When the Dragons Came". We have had a fun week investigating how to count in 2s, 5s and 10s using our bodies. We also wrote instructions for our dragons on how to play games and painted our clay dragon models!

Emily and Sheena :)

Red Nose Day

Friday 13th is Red Nose Day. We are holding a masked dance-a-thon! Look out for sponsorship forms coming home to raise money for this great cause.

Maths Focus

This week we have been counting forwards and backwards in 2s, 5s and 10s. The children have been using their bodies to help them e.g. 2 arms, 5 fingers on each hands and 10 toes per person.

Can you count forwards in 2s, 5s and 10s using your bodies e.g. there are 5 people at the table , how many arms? Then try counting backwards in 2s, what would happen if 1 person leaves the table, how many arms now? Challenge children to count how many fingers are on the table if 6 people put one hand on the table by counting in 5s.
